## **NOTICE AND DISCLAIMER**

The information in this publication was considered technically sound by a consensus among persons engaged in its development at the time it was approved. Consensus does not necessarily mean there was unanimous agreement among every person participating in the development process.

The National Electrical Manufacturers Association (NEMA) Standards and guideline publications, of which the document herein is one, are developed through a voluntary Standards development process. This process brings together volunteers and/or seeks out the views of persons who have an interest in the topic covered by this publication. Although NEMA administers the process and establishes rules to promote fairness in the development of consensus, it does not write the documents, nor does it independently test, evaluate, or verify the accuracy or completeness of any information or the soundness of any judgments contained in its Standards and guideline publications.

NEMA disclaims liability for any personal injury, property, or other damages of any nature, whether special, indirect, consequential, or compensatory, directly or indirectly resulting from the publication, use of, application, or reliance on this document. NEMA disclaims and makes no guaranty or warranty, express or implied, as to the accuracy or completeness of any information published herein, and disclaims and makes no warranty that the information in this document will fulfill any particular purpose(s) or need(s). NEMA does not undertake to guarantee the performance of any individual manufacturer's or seller's products or services by virtue of this Standard or guide.

In publishing and making this document available, NEMA is not undertaking to render professional or other services for or on behalf of any person or entity, nor is NEMA undertaking to perform any duty owed by any person or entity to someone else. Anyone using this document should rely on his or her own independent judgment or, as appropriate, seek the advice of a competent professional in determining the exercise of reasonable care in any given circumstance. Information and other Standards on the topic covered by this publication may be available from other sources, which the user may wish to consult for additional views or information not covered by this publication.

NEMA has no power, nor does it undertake to police or enforce compliance with the contents of this document. NEMA does not certify, test, or inspect products, designs, or installations for safety or health purposes. Any certification or other statement of compliance with any health- or safety- related information in this document shall not be attributable to NEMA and is solely the responsibility of the certifier or maker of the statement.

## CONTENTS

	<b>Page</b>
<b>1 SCOPE</b> .....	<b>1</b>
<b>2 TERMS AND DEFINITIONS</b> .....	<b>1</b>
<b>3 MEASURING INSTRUMENTS</b> .....	<b>1</b>
<b>4 ENERGY CONSUMPTION UNITS</b> .....	<b>1</b>
<b>5 ENERGY CONSUMPTION TESTS</b> .....	<b>1</b>
<b>5.1 GENERAL</b> .....	<b>1</b>
<b>5.2 TESTING CONFIGURATIONS</b> .....	<b>2</b>
<b>5.2.1</b> Device Without Neutral Connection.....	<b>2</b>
<b>5.2.2</b> Device with Neutral Connection.....	<b>3</b>
<b>5.2.3</b> Device Without Neutral Connection with Grounding Conductor Leakage Current.....	<b>4</b>
<b>5.2.4</b> Device Without Load Connection .....	<b>5</b>
<b>5.2.5</b> Alternate Method (Power In–Power Out).....	<b>5</b>
<b>6 ENERGY CONSUMPTION INFORMATION</b> .....	<b>6</b>
<b>ANNEX A EXAMPLES OF ENERGY CONSUMPTION INFORMATION (INFORMATIVE)</b> .....	<b>7</b>
<b>ANNEX B EXAMPLE OF 3-UNIT SAMPLE AND REPORTING THE ENERGY CONSUMPTION MEASUREMENT (INFORMATIVE)</b> .....	<b>8</b>

## FIGURES

	<b>Page</b>
Figure 5–1 Device Without Neutral Connection.....	<b>2</b>
Figure 5–2 Device with Neutral Connection.....	<b>3</b>
Figure 5–3 Device Without Neutral Connection with Grounding Conductor Leakage Current.....	<b>4</b>
Figure 5–4 Device Without Load Connection .....	<b>5</b>
Figure 5–5 Alternate Method (Power In–Power Out).....	<b>5</b>
Figure A–1 Label Examples: Device with Full Load and Standby Energy Consumption .....	<b>7</b>
Figure A–2 Label Examples: Device Without Standby Energy Consumption .....	<b>7</b>

## TABLES
